Since 1817 we have enjoyed a celebration of our agricultural community with competitions, demonstrations and displays mixed in with midway rides, shows, and contests. Arts, crafts and locally produced food products are readily available.

Map & Guide

Map & Guide

Welcome to the land of milk and honey.
Famous for world-class fishing and boating on the water, the 1000 Islands has a lot to enjoy on land too.
Today, Jefferson County in New York's 1000 Islands Region is one of the nation's leading producers of milk. As for honey, there are more than 1,500 colonies of busy bees working in the county.
Visitors can chart a course to explore farm markets, wineries, distilleries, specialty food producers, and agricultural heritage sites.
